CABINET HANGERS

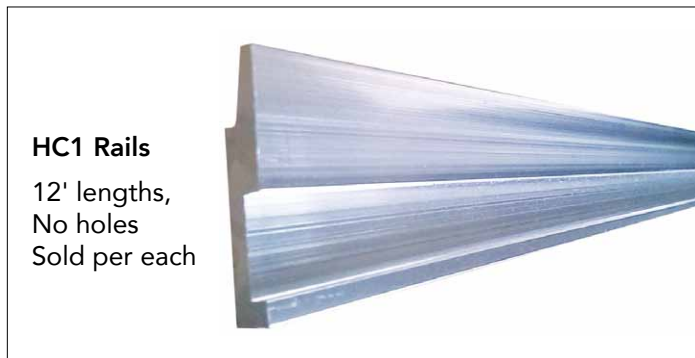

ALUMINUM HANGING RAILS & CLIPS

Heavy Duty

HC2 Clips - 2-1/2" width
Sold per pair

Two interlocked clips shown.

HC1 Rails
12' lengths,
No holes
Sold per each

Excellent for hanging wall panel systems, elevator panels, cabinetry door displays, speaker panels, blind panels, secret panels, etc.

This aluminum extrusion provides a simple, secure and concealed installation. Provides easy panel removal for mechanical access, remodeling or refinishing. Clips are 2-1/2" wide, 1-1/2" high, with holes and sold in pairs. Rails are 144" (12') lengths, without holes and sold per each. Screws not included. Clip can use up to a #10 pan-head screw.

Clips allow slim 1/4" clearance, side to side adjustability and high load capacity.

ELEMENT DESIGNS Backpainted Glass

Element Designs offers backpainted glass for both commercial and residential applications. Custom backpainted glass thicknesses include 4mm (5/32"), 6mm (1/4"), 10mm (3/8") and 12mm (1/2") in either a gloss or matte finish. Backpainted glass is an ideal product for a variety of applications such as wall panels, partitions, back-splashes, table tops, countertops and even trade show flooring. The durability of glass combined with vibrant color result in beautiful surface materials for any application. There are nine standard colors, 177 non-standard colors and full custom color matching capabilities.

Non-Standard Colors

Available in 177 non-standard colors: visit element-designs.com for full spectrum.

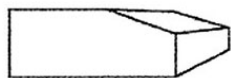

Custom Colors

Element Designs can provide exact color matches for custom projects. A custom color match fee covers the paint matching process and two 12" x 12" samples for approval. Samples of non-standard colors can also be obtained for a fee.

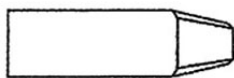

Standard Colors

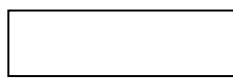

Edge Finish Options

Bevel

Flat Edge Polish

Seamed
(concealed edge applications)

Please refer to Design Guidelines at element-designs.com for Edge finish availability for specific thicknesses. Backpainted glass can be fabricated to include notches, cut-outs, holes and custom shapes.

GOLA Aluminum Spacer Channels

Achieve sleek, hardware-free cabinetry without additional fabrication to cabinet doors or drawer fronts. The spacer channels provide ample space for fingertips so that the actual drawers and door fronts can be used to open and close instead of exposed handles or pulls. The numerous finish options accent or blend into most cabinetry applications. Cut-to-size profiles available to make your installation easier.

J-Shaped Horizontal channel in White finish.

Horizontal and Vertical Profiles available in various lengths and finishes.

GC-8006 J-Shaped channel:
Install under countertop

GC-8007 C-Shaped channel:
Install between drawer fronts

GC-1730 Upper cabinet channel:
Upper cabinet installation

See element-designs.com for more info.

ELEMENT DESIGNS PARAPAN Solid Surface Doors

Element Designs is proud to offer PARAPAN high gloss, solid surface doors and inserts. Used by the leading European luxury cabinet manufacturers, PARAPAN is a revolutionary material engineered to be durable and environmentally friendly - no VOCs.

The PARAPAN material creates highly reflective doors and surfaces ideal for the most discriminating residential and commercial interiors. Both front and back surfaces yield a perfect flat mirror finish. Unlike other high gloss finish doors, minor scratches can be removed through buffing and polishing as a result of the high quality solid surface composition. UV and fade resistant. Doors arrive fully fabricated and ready to install.

Available in 2 distinctive styles: 18mm solid doors and aluminum frame doors with 4mm inserts. 18mm doors available with a choice of two standard integrated pull options.

High Gloss Custom Door & Drawer Fronts

LUXE is an advanced decorative panel with a high gloss finish on one face, while the back is a matching decorative matte melamine in the same design.

- 3/4" MDF Core
- High Gloss Polyester Front / Matte Back
- Two Edgebanding options (solid and bi-color)
- Separate edgebanding & boards available

View All Colors and Styles at
www.lioherenterprise.com/luxe/

This product is more durable than alternative products; highlighting its scratch-resistance, surface quality, high brightness as well as light stability towards colors.

These qualities make it well suited for vertical applications in kitchen, bathroom, office and home furniture.

The LUXE manufacturing process allows solid colors plus a wide range of designs, such as wood, marble, stone, fantasy etc.. This makes LUXE a highly versatile and decorative product.

Can be supplied in panels or in edged pieces. For this last option, LIOHER has PUR technology in order to offer its product the finish according to its quality.

APPLE PLY QUALITY SELLS:

When people inspect a piece of furniture or cabinetry, the first thing they often do is open a drawer. Real Wood stands out; in a world of vinyl wraps, the demand for real wood products has never been greater. ApplePly sides take screws easily and accept the better quality slides. Clear UV finish on White Maple looks great, stays hard and resists water and household spills.
